## Sneak Preview

### Want a little taste?

Here's a preview of some of the newly completed fruits and vegetables I'll unveil at the show.

**Eye on Annapolis writes...**

"Kirsh's vision for the show is to generate excitement, engagement and surprises. 'I want to create a sense of wonder, curiosity and fun from the moment someone sets foot into the exhibit. ...I want to orchestrate a symphony of visually dynamic conversations among the pieces,' she says."
